

**DCARC NET
CONTROL SCRIPT**

QST...QST...QST This is (YOUR CALL-SIGN), (YOUR FIRST NAME), with the Dickson County Amateur Radio Club Tuesday night net. This net meets every Tuesday night at 1900 Central Time to help keep Local Radio Operators up to date on news and events.

We operate on a frequency of 147.375 PL Tone 146.2 White Bluff Repeater.

You do not need to be a member of the Dickson County Amateur Radio Club to participate in this net and all are welcome to join in. This is not an emergency net, however if there is any emergency traffic during the net, please inform net control by saying "BREAK ... BREAK" and give your call-sign, and net control will handle your traffic as required.

When checking in, net control asks that you give your call-sign once slowly and then again phonetically and then your name and location.

When checking in, please key down and say "THIS IS", announce your call-sign then un-key and listen for others. If you don't hear anyone else doubling, key down and check in. Net control will now take check-ins.

Pause every few check-ins and verify the call-sign, name and location of each check-in. Announce Trivia Question. Once all check-ins finish and all have been acknowledged for comments and announcements.

Once all check-ins, and announcements items have been handled, conclude the net.

This is, (YOUR CALL SIGN), (YOUR NAME) and I will now be closing the net at (TIME) and returning the frequency back to normal use. Net control and the Dickson County Amateur Radio Club would like to thank all of you for checking in and would ask you to be here next Tuesday evening at 1900 hours. Until then, 73, this is (YOUR CALL SIGN), clear.
